EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert Pous on 23 January 2007.

The application has been amended as follows:

cancel claims 21 and 22; and

claim 12 has been amended as follows:

Claim 12. A powder container, comprising:

a powder storing body storing powder and formed with an opening at one end;

a base member affixed to said opening of said powder storing body; and

an outlet member, which is formed with a passage configured to deliver the powder from said powder storing body to an outlet of the powder container and has a shutter for selectively blocking or unblocking said passage, selectively connectable to said base member,

wherein said base member comprises a passage that allows the toner to flow therethrough, and said passage of said base member has an opening area, as measured at an outlet of said base member adjacent to an inlet of said outlet member, larger than an opening area of said passage of said outlet member adjacent said shutter,

wherein said shutter is a cylindrical member traversing the passage of said outlet member and is removably fittable in a transverse cylindrical shutter hole of said outlet member which

Art Unit: 2852

transverse cylindrical shutter hole is substantially transverse to the powder passage, wherein the cylindrical member traversing the passage of said outlet member has a cylinder axis parallel to an axis of the transverse cylindrical shutter hole,

wherein said outlet member comprises a first part selectively connectable to said base member and a second part fitted in the first part and including the shutter.
